### Executive Profile

Robert is a Partner in the Houston office of SeatonHill. Mr. Wesolek is an accomplished professional with proven expertise in the structuring and implementation of mergers and acquisitions, go-public transactions, complex financings, public company reporting, infrastructure assessment, transaction architecture, and executive management. In his more than 35 years of experience, Robert has successfully worked with mature and start-up companies implementing strategic, people-oriented leadership, skilled team building, problem solving, and results-oriented management.

### Key Experience

**Oil & Gas:** During the period from 2007 to 2021, Robert acted as Director and Chief Financial Officer for 4 publically traded oil & gas exploration/development entities, holding assets situated in 5 international jurisdictions; The Pacific Hunt Energy Group (2013-2020), EFLO Energy (2011-2015), Holloman Energy Corporation (2009-2014), and Strongbow Resources Inc. (2007 – 2013).

**Software Development & Manufacturing:** During the period from 1996 through 2006, Robert acted as Director and Chief Financial Officer for 3 software development entities: The Navigates Corporation (1998-2004), Citadel Security Software Inc., publically traded (1996-2001), and Kent March Ltd. (1987-1996), and one publicly traded private label manufacturer and wholesale distributor of chocolate products - House of Brussels Chocolates, Inc. (2004-2006).

Mr. Wesolek played a pivotal or primary role in each of these entities' mergers, asset acquisitions, go-public strategies, accounting and reporting management, regulatory compliance, and financing strategies.

**Our partners have deep experience across multiple industries, and can quickly integrate into your organization to provide the insights you need to succeed in today's marketplace.**

**Robert Wesolek**  
Partner

### **Selected Accomplishments**

- Successfully engineered reverse mergers and/or public status for six (6) corporations with historical market valuations approximating \$500 million.
- Extensive experience in international transaction structuring and negotiation.
- Among the principals responsible for the acquisition, stabilization and initial exploration of approximately 12 million acres of oil and gas property located in 5 jurisdictions worldwide having approximate aggregate NPV values in excess of \$2.5 Billion.
- Successfully engineered and participated in capital raises totaling more than \$175 Million.
- Among the principals responsible for the development and publishing of more than a dozen successful software products with combined installed base of more than 1 million users.
- Primarily responsible for accounting, financial statement preparation, SEC reporting, transaction flow processes and internal control procedures for each of four corporations with cash flows ranging from \$3 million to \$14 million annually.
- Planned and implemented first of its kind "Internal Control Reliance" inventory audit for multi-billion dollar oilfield tool manufacturer.
- Engineered and managed successful International software development and redistribution relationship with PII, India's then second largest industrial consortium.
- Inventor and U.S. Patent Holder of network infrastructure patent entitled, "Method and Apparatus for Data Channelization and Hardware-based control of Networks." – June 1997
